## **About Find it EZ Software Corp.**

Find it EZ Software Corp. is a software development tool vendor with headquarters in the heart of the Silicon Vineyard, Kelowna, BC, Canada ... home of Club Penguin and Disney Online Studios. Find it EZ was founded in 2010 as a spin-out of Bits n' Bytes Software Inc. with customers throughout the USA, UK, Canada, Australia and New Zealand who depend on its automated change impact analysis software. Find it EZ is an award winning global leader in productivity software for developers.

Whenever changes are planned or made to the underlying database in any software application, it can be a challenge to find all referenced code that can be affected. Normally, each software layer or programming language would require time-consuming and disconnected analysis with a variety of tools. Find it EZ provides a full 360 degree view of the entire code-stack in a single pass. Search and document Crystal Reports, SSRS, SQL Server, Oracle, MySQL, Excel and more for complete change dependency analysis with just one integrated tool.
