JULY 2014 PRODUCT UPDATES

Kelowna, BC Today Find it EZ Software Corp. announced new releases of both it's Find it EZ Pro Desktop and Pro Server products. Support for Oracle 12 and SQL Server 2014, mass convert Crystal Reports data sources and drastically improved performance.

"Find it EZ is committed to boosting software developer productivity with our suite of fully integrated software change impact analysis tools. We create productivity software for developers that simplifies change planning and execution." said Ken Gnazdowsky, co-founder and CEO of Find it EZ Software Corp. "Our latest Pro editions are now 30% faster on first pass and over 90% faster on subsequent scans using a new indexed copy of your code."

Find it EZ Code Search Pro 2014 now includes certified support for the latest SQL databases, including:

- SQL Server 2014
- Oracle 12c
- DB2 10.5
- MySQL 5.7

"Find it EZ Code Search is a powerful search and impact analysis tool that helps report designers, DBAs and database developers be more productive." said Ken. "Using a tool like Find it EZ also helps to contain costs through better design choices using more reliable estimates that are based on facts. This also leads to better code quality throughout the entire software change process."

About Find it EZ Software Corp.

Find it EZ Software Corp. is a software development tool vendor with headquarters in the heart of the Silicon Vineyard, Kelowna, BC, Canada ... home of Club Penguin and Disney Online Studios. Find it EZ was founded in 2010 and has rapidly grown with customers throughout the USA, UK, Canada, Australia, France, Ireland and Germany who depend on its automated change impact analysis software. Find it EZ is an award winning global leader in productivity software for developers.

Whenever changes are planned or made to the underlying database in any software application, it can be a challenge to find all referenced code that can be affected. Normally, each software layer or programming language would require time-consuming and disconnected analysis with a variety of tools. Find it EZ provides a full 360 degree view of the entire code-stack in a single pass. Search and document Crystal Reports, SSRS, SQL Server, Oracle, MySQL, Excel and more for complete change dependency analysis with just one integrated tool.
